ANNUAL REPORT N° 11 (2013)

In April 2013, Manna Eye Clinic Nkongsamba celebrated its 10th anniversary. We are proud of our achievements thanks to the assistance of many and God's continuous guidance.

During the year 2013, we received the donations of a Yag and a Diode Laser, an A/B-Scan, a Fundus camera and an OCT. Unfortunately the Fundus Camera and the OCT are not in working order.

Regrettably when the much needed automatic visual field machine arrived, it was not functioning and was sent back.

Mrs. Tanwani Catherine returned to our clinic after one year of successful Ophthalmic Nursing Training in Ghana and Mr. Mufan Edwine after one year of Optical Training in The Gambia.

Mr. Nkambi Shadrack continues the State Registered Nursing Training in Cameroon (second year).

Mrs. Eveline Amundam Asanga carries on with the Correspondence Course (MBA) in Financial Management offered by the University of Wales.

The Government Nursing School Nkongsamba keeps sending Student Nurses for internship to the Clinic during the year.

2013 was a difficult year for us as many so called opticians, so called eye nurses (without proper knowledge of eye disorders) offered eye consultations in churches, health centres and hospitals.
